Membership Class to Be Feature of Department Work

Membership in the Rock Island, similar to the very near future, will be open to all of the city interested in the work of the department of the Rock Island. At the meeting yesterday afternoon, Mrs. H. S. Bollman, was appointed a committee to investigate the plan thoroughly and to report on the marking of the work.

The matter was brought to the attention of the club women by Mrs. H. S. Bollman, former club president, who had been in communication with one of the Chicago women, who was the speaker for the evening.

His subject was, "Women's Duty on Election Day." He showed the struggle and the work of some of the leaders in the suffrage movement which led up to the adoption of the 19th amendment, and through his entire talk urged the women to realize the duty they owe now to the polls and cast their vote.

Major and minor importance. "You are going to be good losers," he said. "Factional fights in primaries should be forgotten. But be you a Democrat or a Republican you should be for the people the majority party stands for. We must look behind the candidate and see the principle of the party he stands for. Study the platform and the issues at stake. You women have not shown as keen an interest in politics as you might have shown. But it is a matter of time before you will. You women want to vote for a candidate who stands for good government and good morale in the community. Some say they do not want to exercise their right to vote, but to see them take that attitude. Women are all interested in the home and things that affect the home and there isn't a law passed

but affects the home or the community. You women are going to help rid politics of corruption, too," the speaker said to a cheering audience.

The sum of \$150 was turned to the hospital committee for the term of six months, following the report of the committee chairman, Mrs. C. L. Thompson, and the request for that sum of money, Mrs. E. M. Sala, chairman of the travelers' aid committee, gave a report in which she told of selling the furniture in the room at the association house, which had been maintained for the use of girls who were without funds for the sum of \$41. The association house was sold and as the room had not been used for some time the furniture was disposed of. Mrs. C. E. Sharpe, who was appointed on the committee to investigate the sources of funds for playgrounds work in other cities of the community, gave an unfinished report, and promised a more complete one for the meeting next month.
